1 First Graph

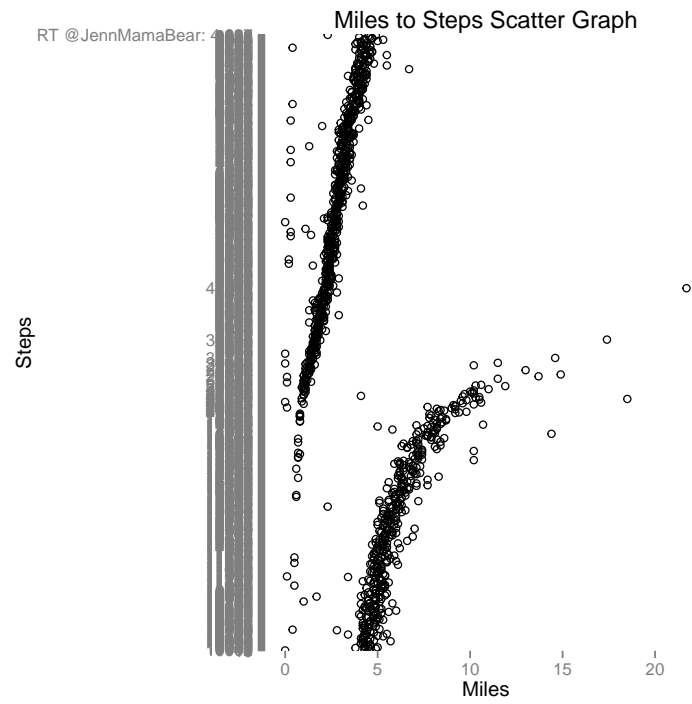

```
> fig1<-source("Q31.R")
```

```
> fig1
```

```
$value
```

```
$visible
```

```
[1] TRUE
```

This graph is drawn from local R Script file which is drawn for Miles on X axis verses Steps on Y axis.

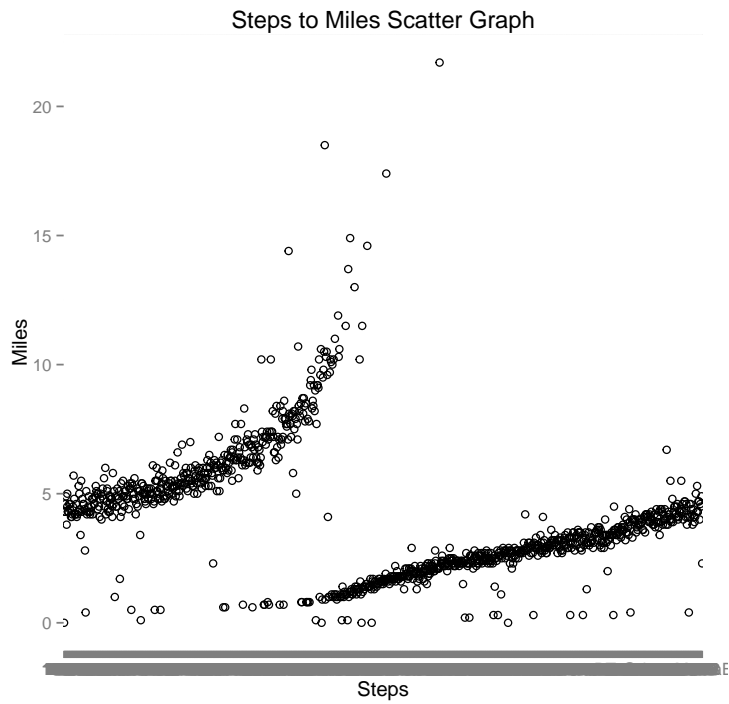

2 Second Graph

```
> library(devtools)
> fig2<-source_url("https://dl.dropboxusercontent.com/u/48214128/Q32.R")
> fig2
```

```
$value
```

```
$visible
```

```
[1] TRUE
```

This graph is drawn from remote secure R Script file which is drawn for Steps on X axis verses Miles on Y axis.
